THE UNESCO CHAIR TEAM WISHES

Season's Greetings and Best Wishes for a Happy & Prosperous New Year 2024

We would like to thank all our partners for their cooperation and for the trust they have placed in us in 2023! It was a very intensive year with many enriching moments.

This year saw the creation of *KaziKidz Pre-Primary/Grade R*, which will soon be published in South Africa and can then be disseminated wherever it meets with interest. Furthermore, we presented South African Council for Educators (SACE) accredited short learning programmes to Foundation Phase and intermediate and senior phase primary school teachers and conducted a *KaziHealth* activation at the Siyaphakama schools. The UNESCO Chair also took part in the CEREPS conference:

We greatly appreciate the cooperation with you in public health research, partly with an application character in focused areas, and look forward to upcoming joint activities in 2024.

We send Season's Greetings and Best Wishes for a Happy & Prosperous New Year 2024!
